

Date: 23rd April 2026

Subject: Price Adjustment Letter – Champion Jointing Sheets.

Dear Champion Customer,

In line with prevailing industry conditions and the continued increase in key imported premium grade of raw material and operating costs, we have undertaken a careful review of our pricing structure.

To ensure uninterrupted supply while maintaining our established quality standards, are implementing a moderate price adjustment on certain product categories with effect from **23rd April 2026**.

The revised prices will apply as follows:

- **Champion Brand Aramid Compressed Fibre Gasket Sheets:** Prices for all aramid fibre grades will be increased by 10% on the current price.
- **Champion Brand Asbestos Compressed Fibre Gasket Sheets:** Prices for all asbestos fibre grades linked to U100 Grade Premium Russian fibre will be increased in the range of 5% to 7% on the current price, depending on thickness.

We fully understand that any price increase places additional pressure on your business, and we sincerely regret any inconvenience this may cause.

However, this adjustment has become necessary to offset sustained cost escalation in upstream raw materials and to ensure continuity of supply, consistent product performance, and dependable service levels.

We remain firmly committed to the principles of **quality first** and **long-term partnership**, and will continue to avoid short-term or unsustainable pricing practices that could compromise product reliability.

We greatly value your trust and look forward to your continued support and mutually beneficial cooperation.

Yours Sincerely,
For Sealant and Gasket India Private Limited,

Danesh Meher Palia
